# 1. Equipment checklist.

- 1) Adapter + Power Jack Adapter
- 2) USB Printer Cable
- 3) Operation Manual
- 4) Driver Disk
- 5) Power Cord

## 2) USB Printer Cable

### 1) Adapter + Power Jack Adapter

### 3) Operation Manual

### 5) Power Cord

### 4) Driver Disk

# 1. Equipment checklist.

Insert the label roll using the 'Roll Mount'.

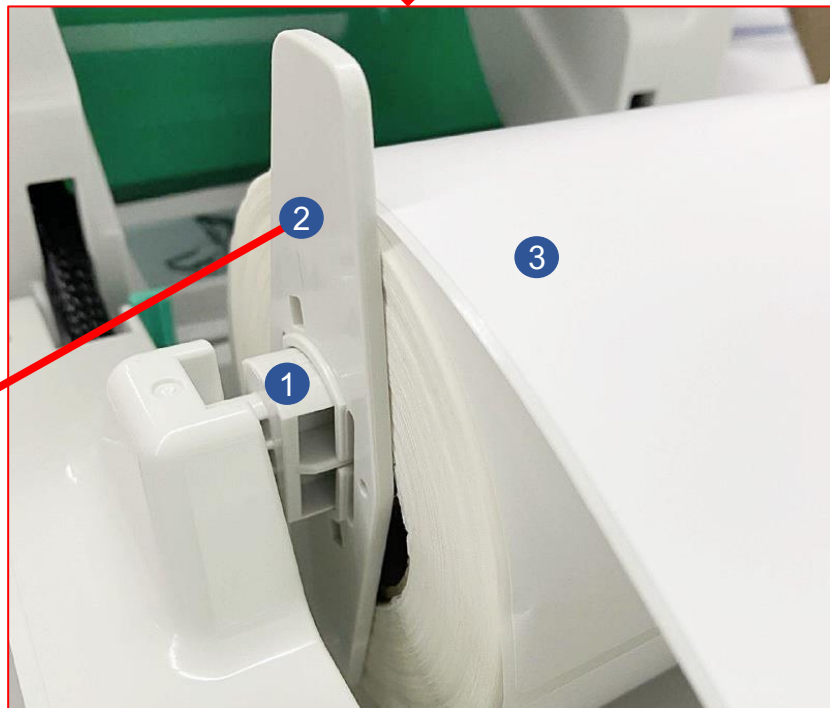

**Label Spindle**

**Core Adapter**

**Label Roll**

**Roll Mount**

**Core Adapter will be placed at both sides to secure the label roll while printing.**

## 2. The different parts of the printer.

### The Front view

**Clear Window** is to view the label roll inside the printer.

**Feed Button** is used for the calibration process.

**The Open button for the Top Cover**

### The Back view

**SD Card Slot**

**USB Printer Port**

**Power Jack Adapter Slot**

**Power Switch**  
I - On  
O - Off

### 3. Getting the printer ready.

#### **Step 1**

Please connect the '**USB**' to the PC/Laptop and plugin the '**Power Cord**' into the socket.

#### **Step 2**

The '**USB Printer Cable**' and '**Power Jack Adapter**' need to connect with the printer. Then, turn on the switch button, and it will beep once.

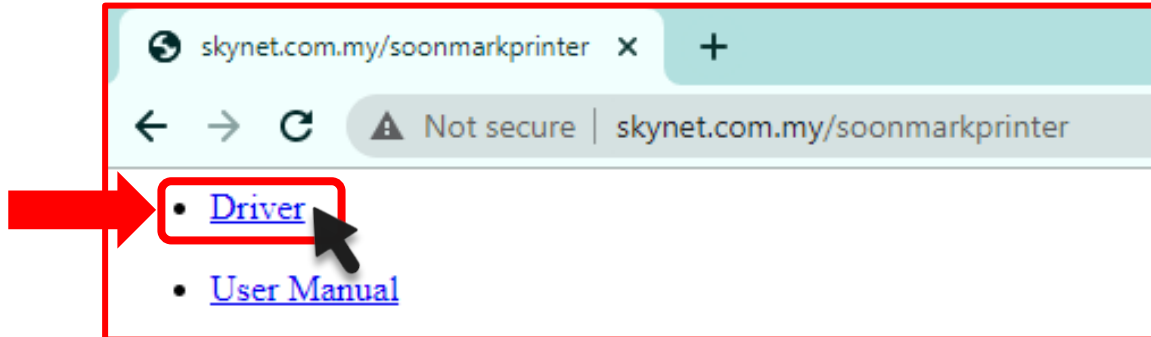

**USB Printer Cable**

**Power Jack Adapter**

## 4. The driver installation.

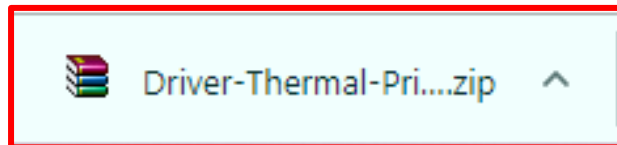

### Step 1

Click here: [skynet.com.my/soonmarkprinter](http://skynet.com.my/soonmarkprinter) and select the **'Driver'** as shown.

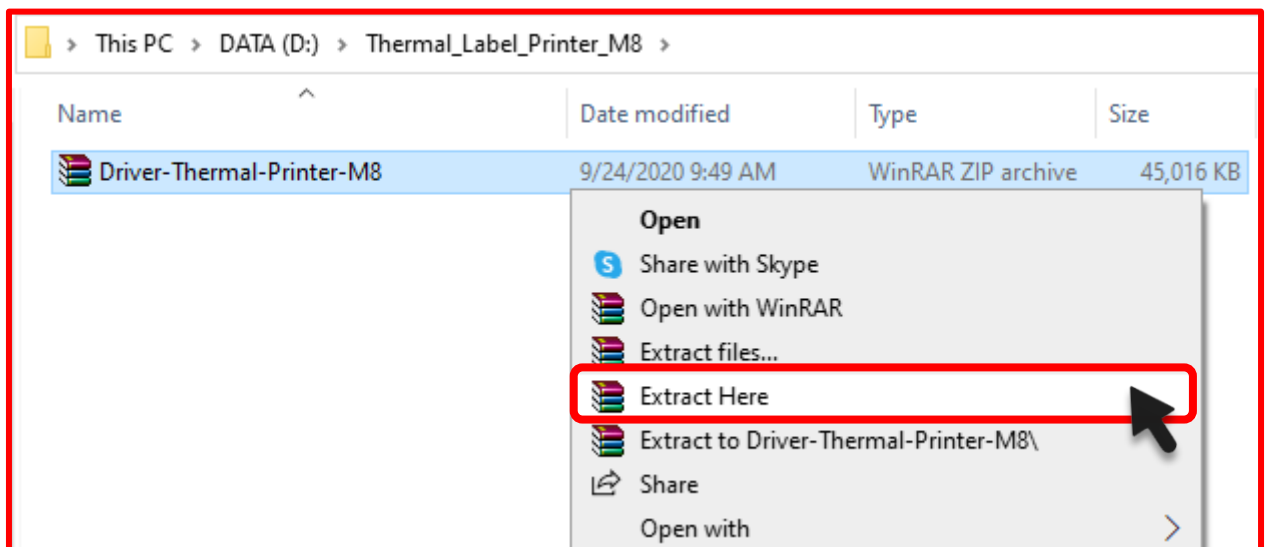

### Step 2

This driver will download as a zip file. Kindly save this zip file at any folder inside your PC/Laptop.

### Step 3

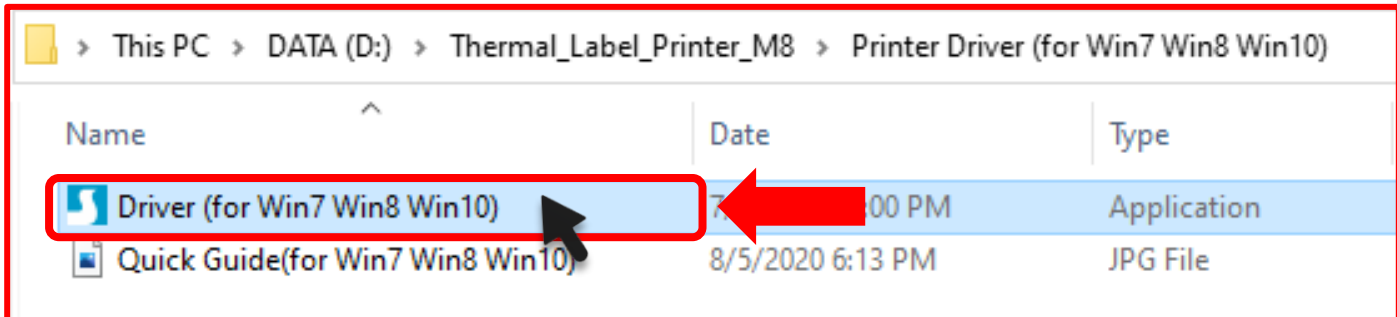

To unzip the file, right-click at the zip file and choose **'Extract Here'**.

## Step 4

After unzipping the file, double click at **'Driver (for Win7 Win8 Win10)'** to install the printer driver.

## Step 5

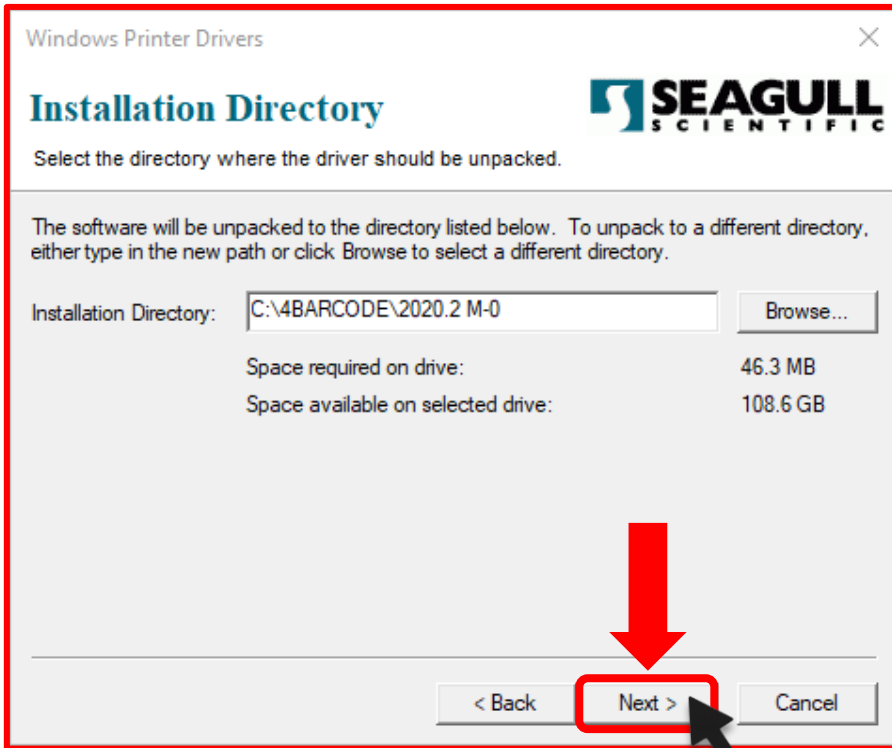

Kindly tick *'I accept the terms in the license agreement'* and click on the **'Next'** button.

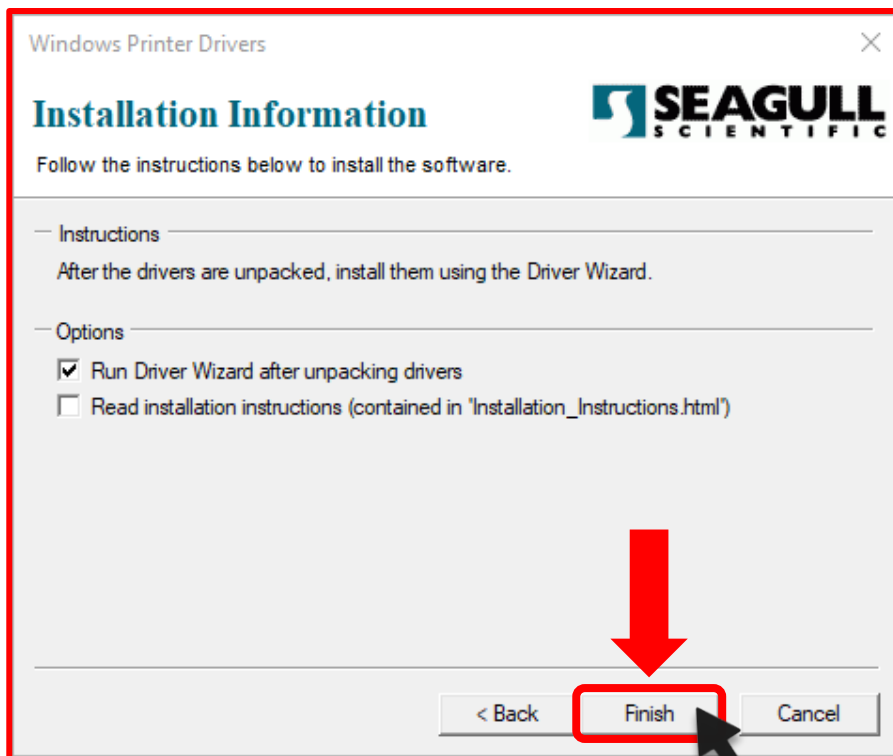

## Step 6

Click the **'Next'** button.

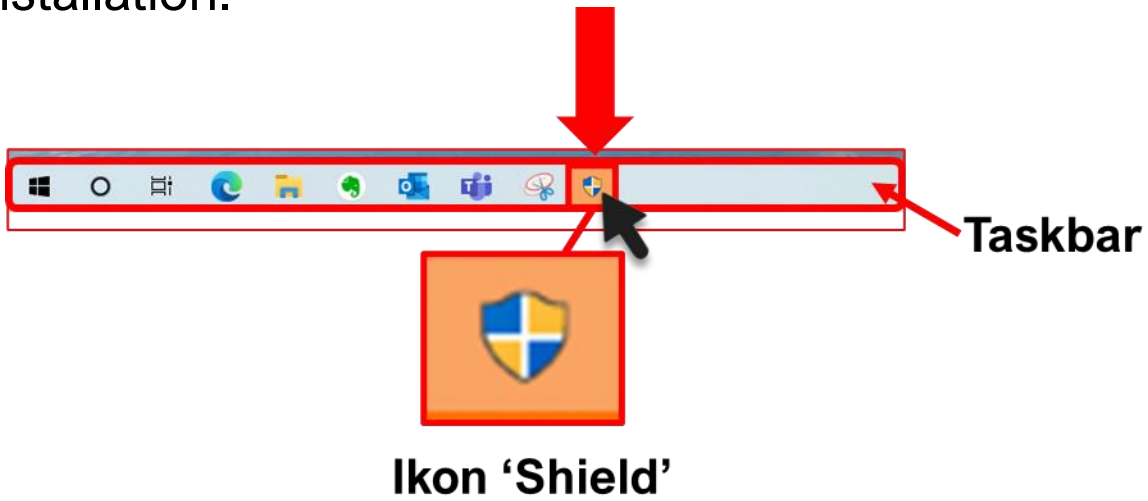

Then, click at the **'Finish'** button.

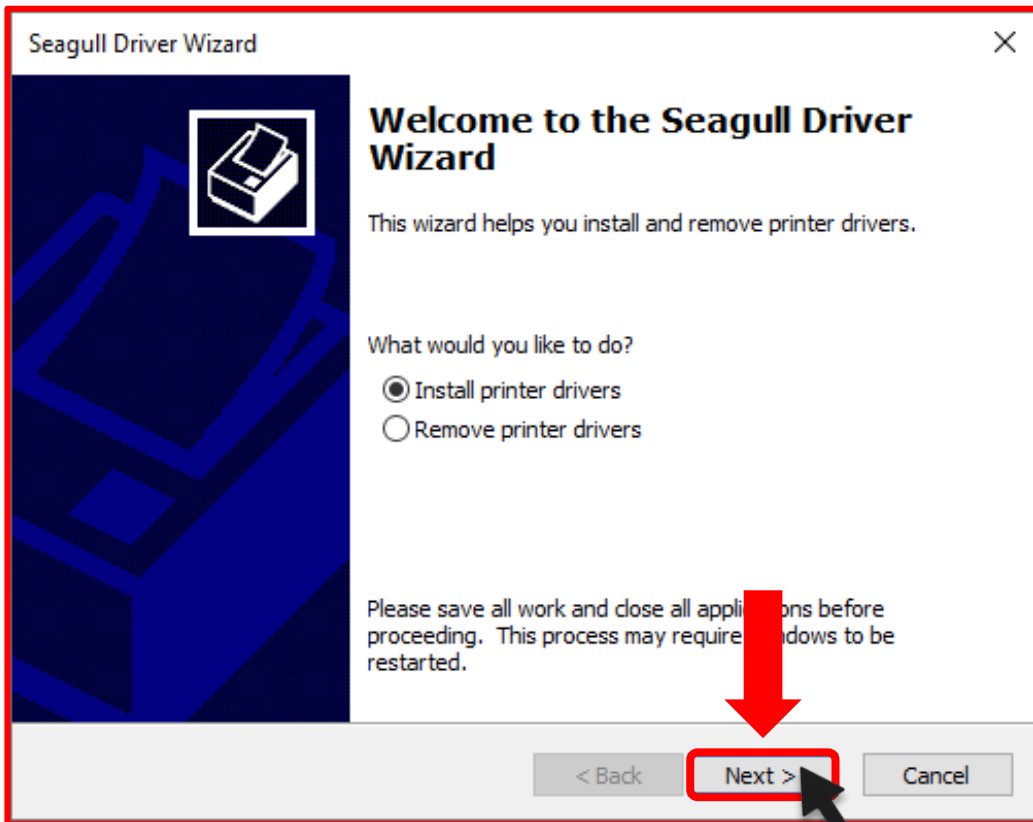

## Step 7

This **'Shield icon'** will blink at the PC/Laptop taskbar. Kindly click at the icon to continue the installation.

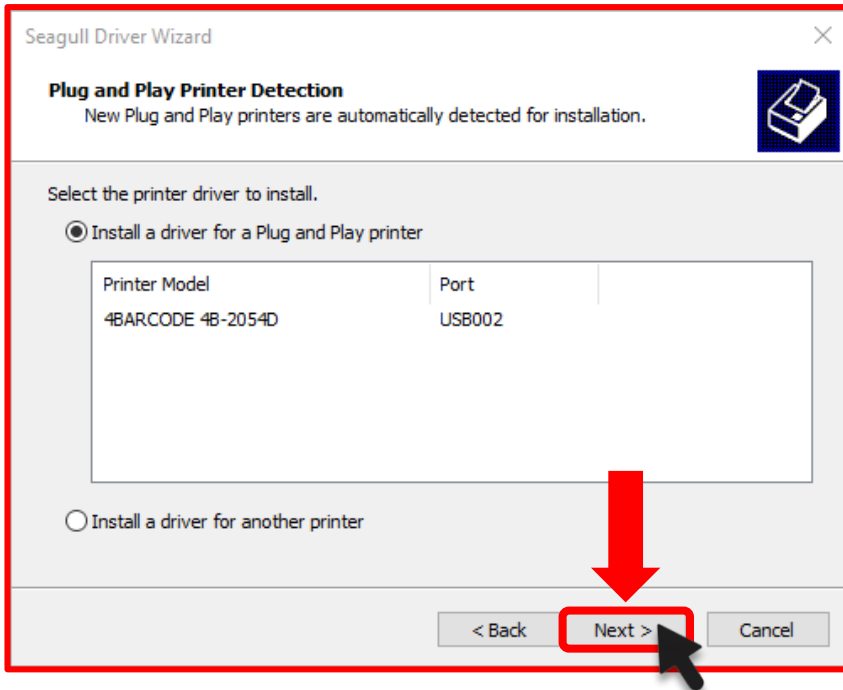

Then, click on the **'Next'** button.

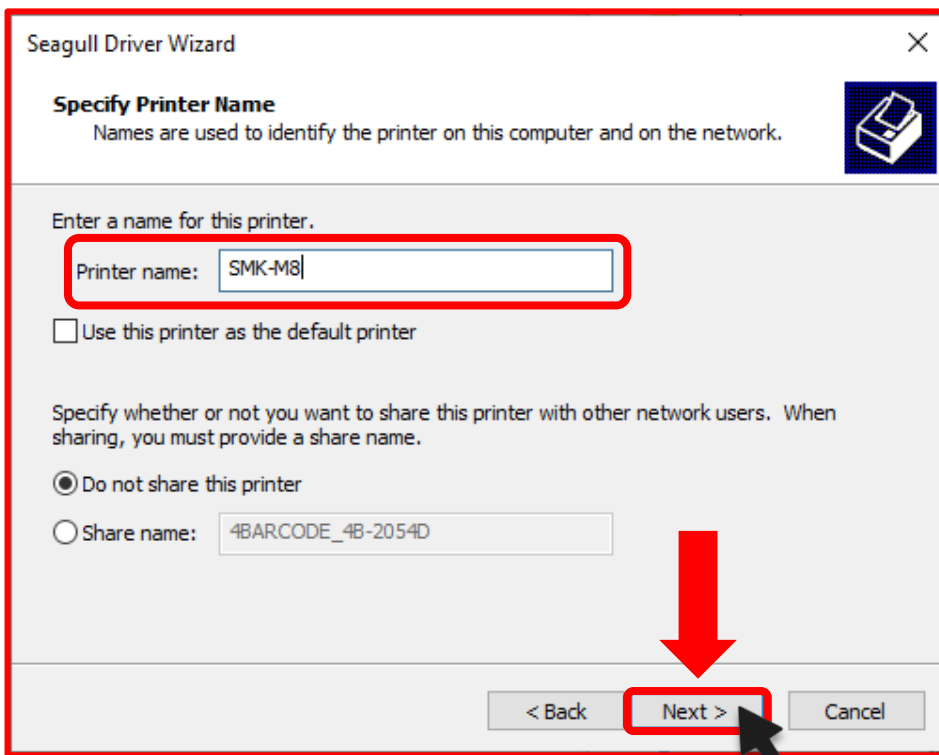

## Step 8

Click on the **'Next'** button.

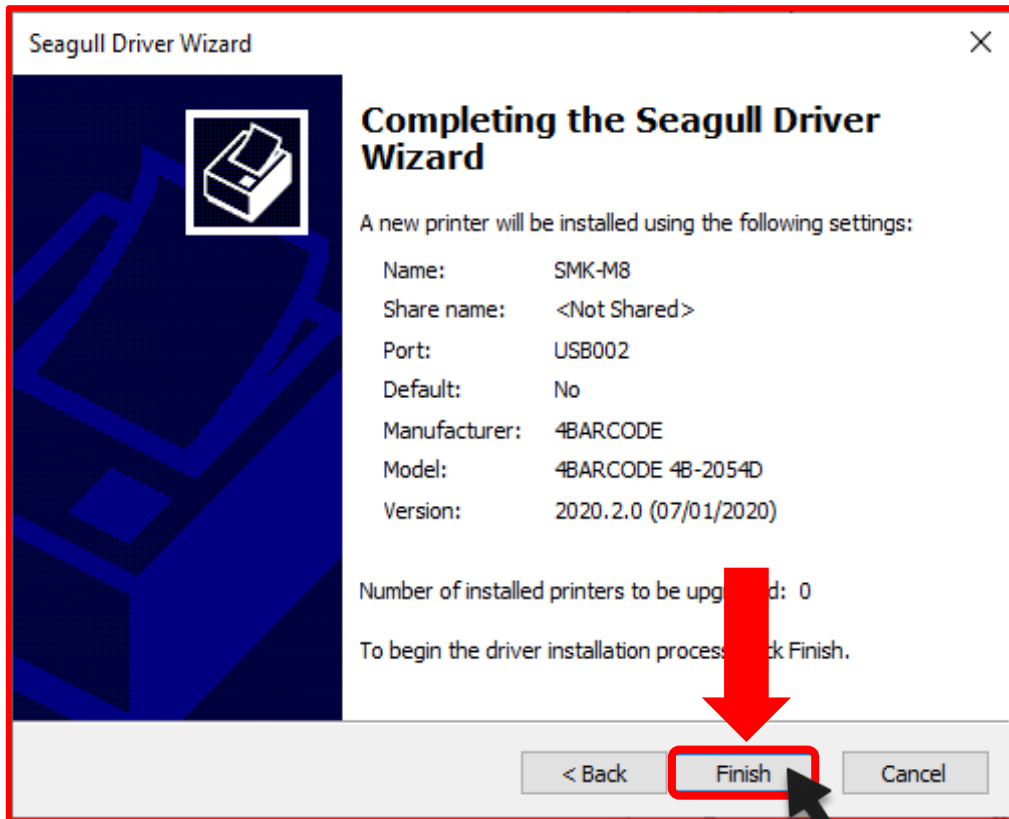

- Use the default name or rename the file for easier reference.
- Rename the Printer as **'SMK-M8'**.
  - SMK referring to SoonMark.
  - M8 referring the Model's name.
- Once done, click on the **'Next'** button.

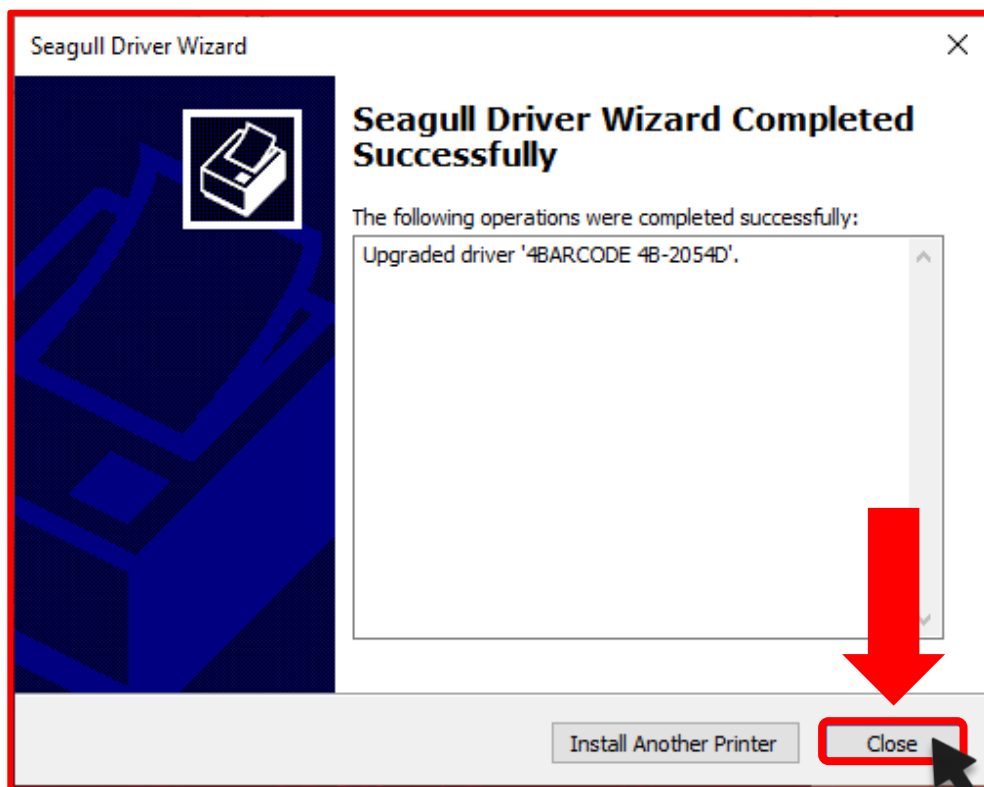

## Step 9

Click on the **'Finish'** button.

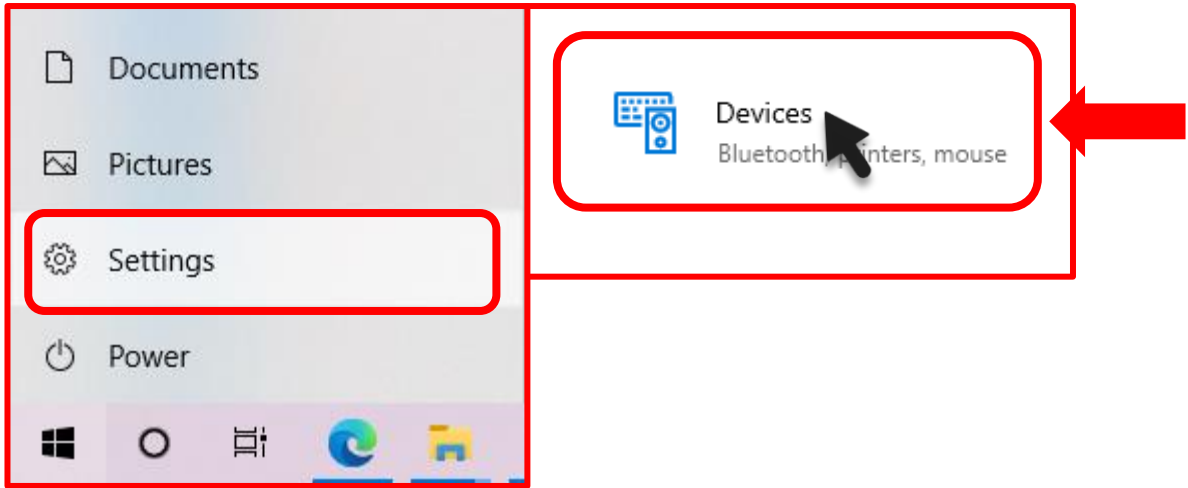

The driver has been installed successfully! Click **'Close'**.

## 5. Setting the printing preferences.

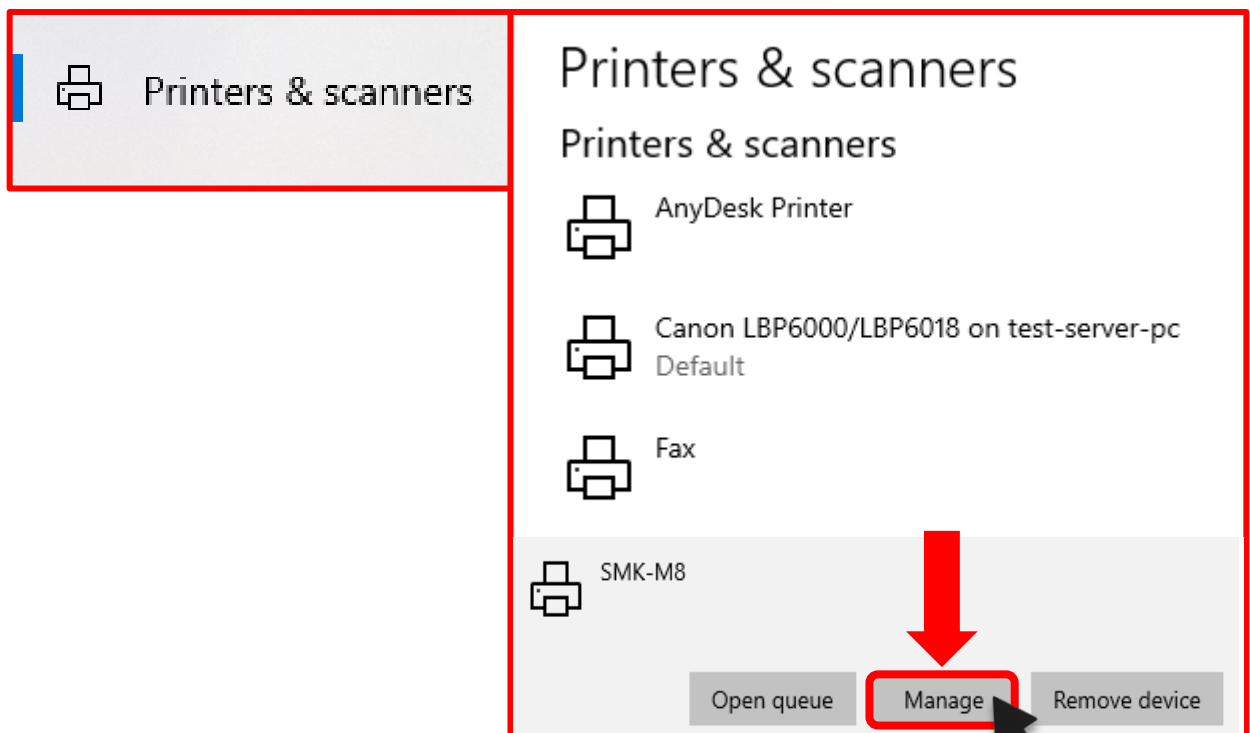

### Step 1

Go to the Windows **'Setting'** and click on the **'Devices'**.

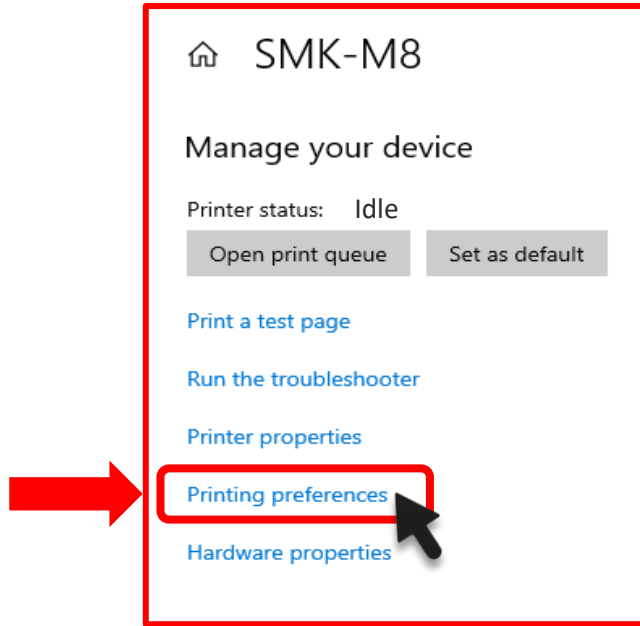

### Step 2

- Click at the **'Printer & Scanners'**.
- Select the printer that has already been renamed as **'SMK-M8'**.
- Click on the **'Manage'** button.

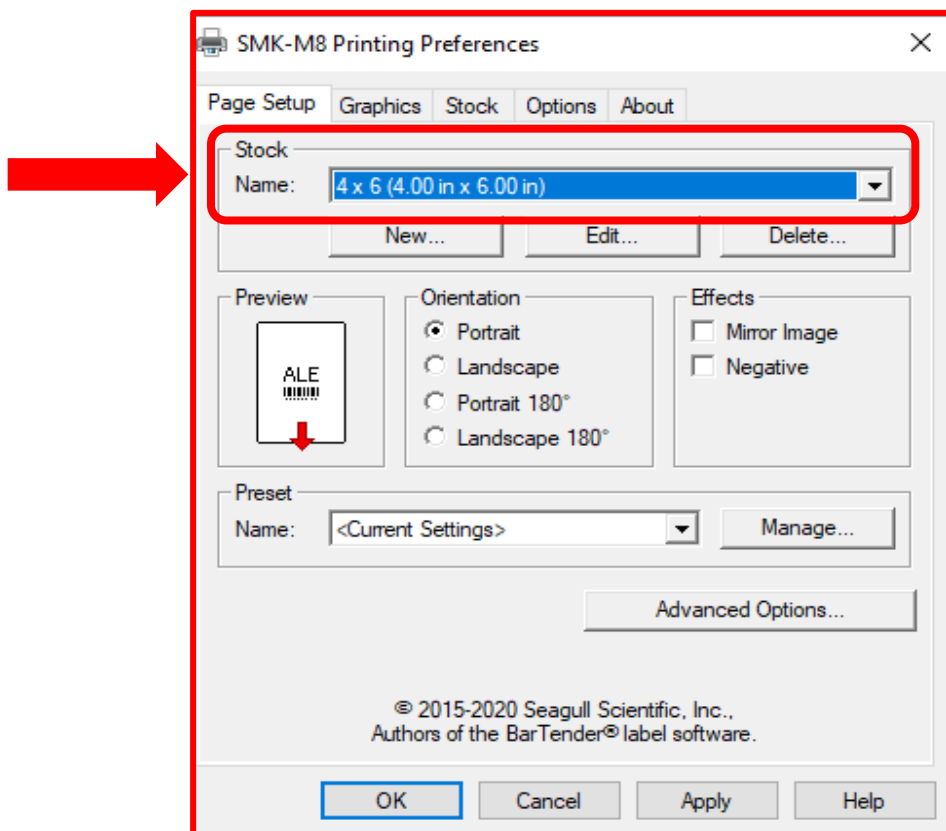

### Step 3

Click at the 'Printing preferences'.

### Step 4

- Select the size '4 x 6' (4.00 in x 6.00 in) for the A6 sticker.
- Click on the 'Apply' button to apply the changes and then click 'OK'.

## 6. Inserting the new label roll.

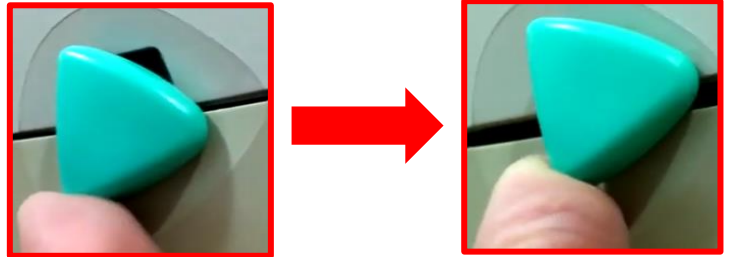

Below is the step on how to insert a new roll.

### **Step 1**

Open the top cover.

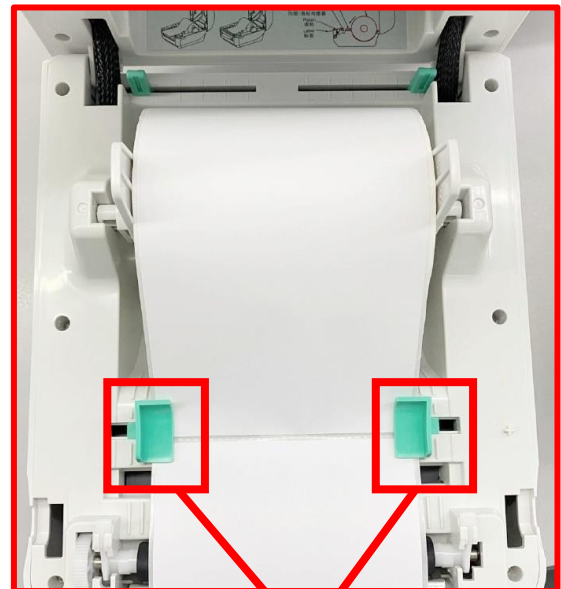

**Front facing**

Put your finger behind the triangle at both sides and pull forwards.

### **Step 2**

Insert the label roll using the 'Roll Mount' with the label facing up.

Secure the sticker with these two clips.  
Then, close the top cover.

## 7. Paper calibration.

The process is for the printer to detect the paper size of the new label roll.

### Step 1

- Insert the new label roll.
- The **'USB Printer Cable'** and **'Power Jack Adapter'** need to connect with the printer.
- Turn on the switch button, and it will make a beep sound.

### Step 2

- Press and hold the **'Feed Button'** until it blinks twice with a red light. Then, the calibration is complete.

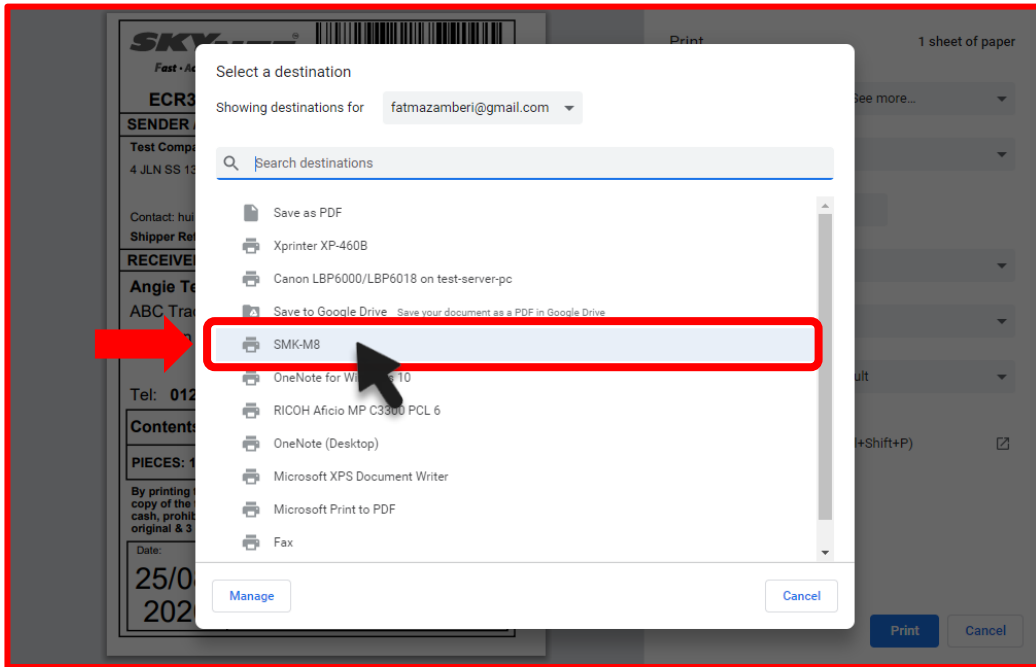

## 8. Printing the eAWB.

Once everything is complete, the last process is to print your eAWB.

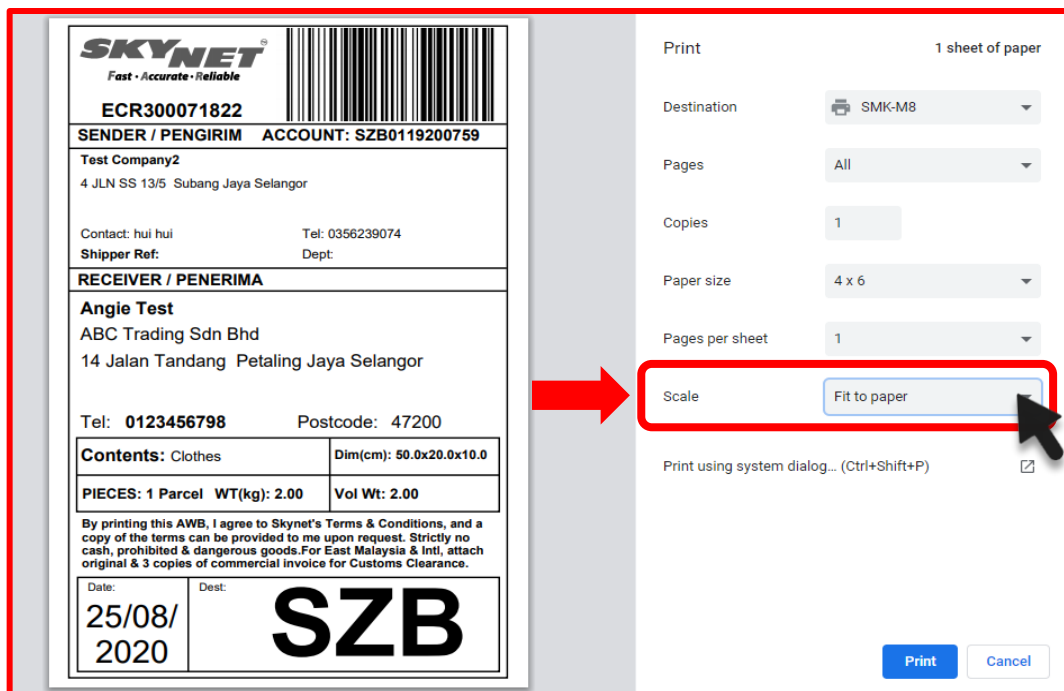

### Step 1

Select the 'SMK-M8' printer.

### Step 2

Select 'Fit to Paper' for 'Scale' and click 'Print'.
